### **DETAILED ACTION**

This Office Action is in response to Appeal Brief filed December 8, 2008 followed by Board decision made March 29, 2012.

#### ***Allowable Subject Matter***

Claims 9-12 and 14 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 9-12 and 14, the prior art references cited in Final Office Action mailed September 18, 2008 do not teach a reduced content of metal contaminants created by a plasma source ion implantation with respect to a content of metal contaminants created by a Kauffman ion implantation.

Especially, the Board decision reversed the Examiner's 35 USC 112, second paragraph, rejections. However, the Examiner would like to point out for future references to whomever it may concern and public's interest that a content of metal contaminants created by a Kauffman ion implantation may not be a fixed value as disclosed in the non-patent literature references attached below.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
